

2008 WSM Papers

The oral presentations will be limited to 15 minutes with 5 minutes for questions. Authors are encouraged to use electronic media for their presentations (PowerPoint or pdf slideshows), but slides and overheads are acceptable with prior notification. A Macintosh laptop computer will be provided but authors may bring their own equipment. Students who present will be eligible for the annual Best Student Presentation Award.

Authors are encouraged to provide oral presentations, but posters are also accepted. International students whose first language is not English are also encouraged to give oral presentations. The poster session will be near the beginning of the meeting (see Program schedule) so plan accordingly. There are no specific guidelines for posters.

Abstracts are required for all presented papers or posters. The abstracts should include a short and concise title, name of authors and affiliation, email addresses for at least one (or preferably all) authors, and main text. If references are included, a list of cited literature should be added at the end of the abstract. References should include each author's/co-author's last name, initials, year of publication, title, periodical (abbreviated), volume and pages, or editorial and place of publication. Figures or tables are not accepted. Please *italicize* scientific binomial (genus and species) names, but not other Latin terms.

Prepare the abstract with a word processor (save in PC- or Mac-compatible Microsoft Word or "RTF" format only; please no pdf), and send it electronically as an attached document to:

cpowell@usgs.gov

If the author does not have access to the Internet then a CD-ROM or high quality hard copy will be accepted. Please mail materials to:

Charles Powell
U.S. Geological Survey
345 Middlefield Road
Menlo Park, CA, 94025
USA

Abstracts should be received **no later than May 10** to be included in the proceedings of the conference.
